corporate -

The RTS are when we mention in this infographic the second communication new types of payment services: the payment area, PSD2 provides for possible:

- The role of the RTS is to define specific regulation and enforcement measures that foster innovation and competition while ensuring a level playing field for the different players in the new PSD2 world.

- The principle of ‘passporting’ even between the relevant actors. They are therefore more concrete than PSD2.

- They are therefore more concrete than PSD2.
