## 1. Objective

Section 4.7.2 of the SEPA Direct Debit (SDD) Core and SDD Business-to-Business (B2B) scheme rulebooks define the rules for the content of SDD Core and SDD B2B mandates respectively.

This document contains EPC guidance on the visual presentation of mandates issued by Creditors as part of their offer to Debtors for the use of SDD as a way for making payments. In case of conflict, the rulebooks prevail over this guidance document. It illustrates several ways to reduce the mandate complexity without losing any essential or mandatory content whilst still remaining rulebook compliant.

### Important notes

#### Provision of the BIC on the SDD mandate:

The delivery of the BIC of the Debtor PSP in SDD collections is optional when both the Creditor PSP and the Debtor PSP are based in a country of the European Economic Area (EEA).

This means that in such cases, the Debtor does not need to mention the BIC of the payment service provider (PSP) holding his/her payment account on an SDD Core or SDD B2B mandate.

The provision of the BIC of the Debtor PSP in SDD collections remains mandatory when the Creditor PSP or the Debtor PSP is in a non-EEA SEPA country. In this case, the Debtor will still have to provide the BIC of the PSP holding his/her payment account on the SDD Core or SDD B2B mandate.

If a Creditor PSP can support the acceptance and the processing of SDD collections from the Creditor containing an IBAN but not the related BIC, it is allowed to do so and to communicate this service to its customers. As a precaution, the Debtor should still provide the BIC of the PSP holding his/her payment account on the SDD Core or SDD B2B mandate. There can be Creditor PSPs that are not able to provide an IBAN-only service for SDD collections in which a non-EEA SEPA country-based SDD scheme participant is involved.

#### Field foreseen for the IBAN of the Debtor:

Creditors cannot by default provide the Debtor with a concrete country code (e.g., **BE**.....-.....-.....) in the foreseen IBAN field for the payment account of the Debtor in their paper-based or electronic mandate templates. This is not compliant with EU legislation as it could discriminate the use of IBANs issued by PSPs based in another SEPA country.

#### Address format of the Debtor and/or of the Creditor:

The 2025 SDD scheme rulebooks foresee the following with respect to the provision of addresses:

- Debtors and Creditors can continue providing addresses in a fully structured format;
- The introduction of the hybrid address format whereby no end-date has been set for this address format as alternative to the fully structured address format; and
- Debtors and Creditors can continue providing unstructured addresses up to 15 November 2026.

The EPC has issued a dedicated EPC Guidance Document ([EPC 153-22](#)) about the provision of addresses under the EPC payment schemes.

## 2. Guidance on the Data Elements to be Included on the Mandate

### 2.1 The data elements present on the mandate form

The mandate form contains the necessary names and fields for the data elements of the mandate, to be completed by the Creditor and by the Debtor.

There are two types of data elements on the mandate form:

1. Mandatory elements: this means that the name of the data element and a corresponding field must be present on the mandate form.
2. Optional elements: this means that the name of the data element and the corresponding field is only provided on the mandate form when the Creditor considers it useful for his business to use these elements in the relation to his debtors.

Section 4.7.2 of the SDD Core and the SDD B2B rulebooks specify in detail the mandatory and optional data elements (named ‘attributes’ (‘AT’)) and the mandatory legal text to be mentioned on an SDD Core mandate and on an SDD B2B mandate:

<b><u>Mandatory attributes:</u></b>	<b><u>Additional attributes for information only:</u></b>
<ul style="list-style-type: none"> <li>• M001 Unique Mandate reference</li> <li>• P001 Name of the Debtor</li> <li>• P005 Address of the Debtor* (i.e. at least a street name and house/residence number)</li> <li>• Postal code/city of the Debtor* (part of P005)</li> <li>• Debtor’s country of residence* (part of P005)</li> <li>• D001 Debtor’s account number (IBAN)</li> <li>• D002 The BIC code of the Debtor PSP**</li> <li>• E001 Creditor company name</li> <li>• E005 Creditor’s identifier</li> <li>• E004 Creditor’s address street and number</li> <li>• Creditor’s postal code and city (part of E004)</li> <li>• Country of the Creditor (part of E004)</li> <li>• M006 Type of payment (only the values ‘one-off’ and ‘recurrent’ are allowed)</li> <li>• M008 Date and location of signing the Mandate</li> <li>• M009 Signature(s) of the Debtor(s)</li> </ul> <p><i>* Only mandatory when the Creditor PSP or the Debtor PSP is located in a non-EEA SEPA country or territory. See also the EPC Guidance Document on the address formats allowed under the SDD schemes (EPC 153-22).</i></p> <p><i>** See Important note on the provision of the BIC on the SDD mandate in section 1</i></p>	<ul style="list-style-type: none"> <li>• P004 Debtor identification code</li> <li>• P006 Name of the Debtor Reference Party</li> <li>• P007 Identification code of the Debtor Reference Party</li> <li>• E007 Name of the Creditor Reference Party</li> <li>• E010 Identification code of the Creditor Reference Party</li> <li>• M003 Underlying contract identifier</li> <li>• Contract description</li> </ul>

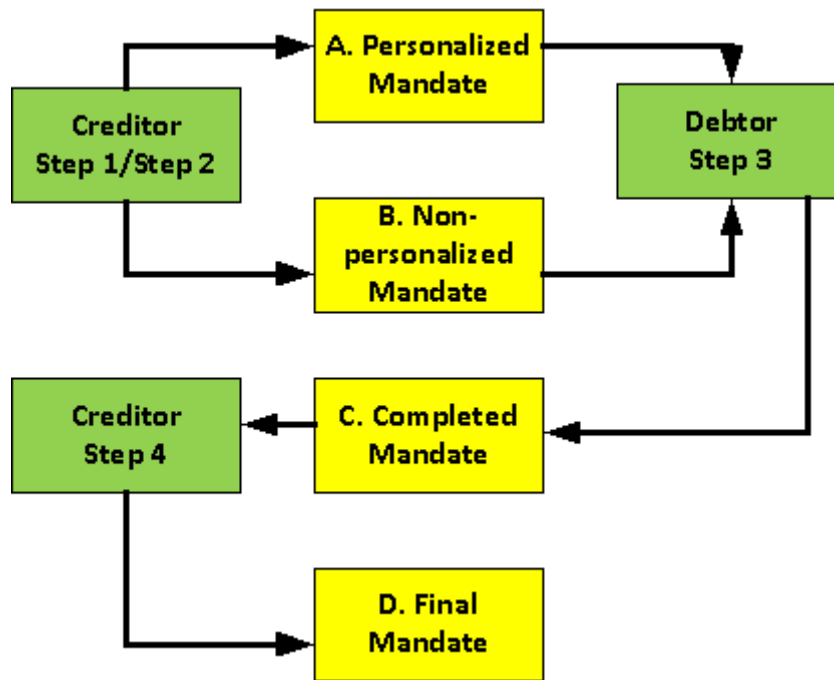

Some attributes are optional in case SDD collections will take place between SDD scheme participants both located in an EEA SEPA country (e.g., for Address of the Debtor).

Note on the Unique Mandate Reference (UMR):

The UMR is mandatory but at the time of the signature of the mandate it may not be available. The Creditor must communicate the UMR to the Debtor as soon as it is available.

**2.2 The basic process steps to complete the mandate form**

The following diagram shows the successive steps in the completion of the mandate:

These steps can be identified as follows:

1. The mandate form is issued by the Creditor in a personalised way (A) to the Debtor, as known from the underlying contract.
2. As an alternative, the mandate form can be issued as a non-personalised mandate (B) to the Debtor, as part of e.g., a commercial publication.
3. The Debtor receives the mandate form, completes it with some data elements, and signs it (C).
4. The Creditor finalises the mandate (D) and accepts it.

**2.3 The physical format of the mandate form**

The physical presentation is not governed by the SDD Core and SDD B2B schemes. All forms of presentations are accepted.

**2.4 The minimum dimensions of the mandate**

The minimum dimension of the mandate should be such that any Debtor is able to read the printed wording. Enough space should be provided for completion of the fields in an official language of the SEPA countries understandable to the Debtor (see section 5).

## **2.5 The legal wording on the mandate form**

The legal wording on the mandate should be reproduced as outlined in section 4.7.2 of the SDD Core and B2B rulebooks without any alteration or omission of the wording.

Note: The legal text of the heading of the mandate makes a reference to the {NAME OF CREDITOR}. As the mandatory mandate attribute "Creditor's Name" already contains the concrete name of the Creditor, the legal wording of the heading of the mandate may also refer to the respective mandate attribute or the term "Creditor".

## **2.6 Character set and maximum number of characters allowed for each mandate attribute**

All mandate illustrations in this document DO NOT specify the exact permitted number of characters or the allowed numeric and/or alphanumeric character set for each mandate attribute.

The specifications covered in the applicable Customer-to-PSP Implementation Guidelines for each SDD scheme rulebook contain this very specific information.

### 3. Specimen Forms for the SDD Core Mandate

In this section, a few mandate illustrations are shown. The objective is to demonstrate how simple the mandate could appear.

#### 3.1 SDD Core Mandate as a **Stand-alone Form**

##### 1. Portrait format

SEPA Direct Debit Mandate  
Creditor: **LOGO, COMPANY NAME, CITY/TOWN**  
**COUNTRY**  
Identifier of the Creditor: DE452399865089  
Mandate Reference.....

*By signing this mandate form, you authorise (A) the Creditor to send instructions to your bank to debit your account and (B) your bank to debit your account in accordance with the instructions from the Creditor. As part of your rights, you are entitled to a refund from your bank under the terms and conditions of your agreement with your bank. A refund must be claimed within 8 weeks starting from the date on which your account was debited. Your rights are explained in a statement that you can obtain from your bank.*

Name of the debtor(s): \_\_\_\_\_

Street name and number: \_\_\_\_\_

Postal code and city/town: \_\_\_\_\_

Country: \_\_\_\_\_

BIC: \_\_\_\_\_

Account number (IBAN): \_\_\_\_\_

Type of Payment:  recurrent or  one-off

Date, location and signature: \_\_\_\_\_

\_\_\_\_\_

2. Landscape format<sup>1</sup>

SEPA Direct Debit Mandate

Creditor: **LOGO, NAME OF COMPANY, CITY/TOWN, COUNTRY**

Identifier of the Creditor: DE452399865089

Party on whose behalf the Creditor collects the payment	<div style="border: 1px solid black; width: 100%; height: 15px; margin-bottom: 2px;"></div> <small>Name of the Creditor reference party: Creditor must complete this section if collecting payment on behalf of another party.</small> <div style="border: 1px solid black; width: 100%; height: 15px; margin-bottom: 2px;"></div> <small>Identification code of the Creditor Reference Party</small>							
In respect of the contract	<div style="border: 1px solid black; width: 100%; height: 15px; margin-bottom: 2px;"></div> <small>Identification number of the underlying contract</small> <div style="border: 1px solid black; width: 100%; height: 15px; margin-bottom: 2px;"></div> <small>Description of contract</small>							

## 5. Guidance on the Translation of Mandates

SDD mandate texts have been translated into all community languages and the translations have been subjected to local legal checks. Each banking community has also taken the decision on the language(s) used. These translations are provided on the EPC website ([SDD Core](#) for the example under 3.2 and [SDD B2B](#) for the example under 4.2).

The objective is to ensure that only approved texts are used from one authorized source, thereby ensuring an appropriate level of clarity and certainty on this point. The EPC therefore recommends that only these translations are used to ensure an adequate level of quality to mandate translations. It is also recommended that when relevant, the country-specific translation is used in cases where the same language is used in different countries and there are different country-specific translations for the same language (e.g., French for France, Luxembourg, Switzerland and Monaco and French for Belgium).
